

Dear reader,

our newsletter gives you additional information on up-to-date reporting on the relevant topics of homeland safety and security – civil protection, disaster assistance, special situation, major events – as well as security research. Usually, we give you information on articles published in our recent issue of Global Security.

But this time we send you a specific newsletter with regard to the Milipol Qatar 2018 exhibition in Doha: Every two years, Milipol Qatar attracts and welcomes to Doha the biggest companies in the public and industrial security sector in the world. These companies showcase the latest products and service innovations in the fields of security, safety, detection and prevention equipment and systems as well as various other defence supplies.

Biennial exhibition and conference set to take place in Doha 29-31 October 2018

International homeland security specialists bring new innovations to agenda-setting Milipol Qatar 2018

NEWSLETTER
10/18

12th edition of the leading homeland security and civil defence event will be the most comprehensive in the show's history and bringing together thousands of industry professionals and thought leaders

Milipol Qatar, the 12th edition of the leading international exhibition dedicated to homeland security and Civil Defence in the Middle East region 2018, will set the agenda for internal security and public safety with leading international specialists bringing new products and solutions, across a range of industries, to the much-heralded exhibition and conference that will be held from 29-31 October 2018, at Doha Exhibition and Convention Center (DECC).

Milipol Qatar 2018 will be held under the patronage of H.H the Emir of Qatar Sheikh Tamim bin Hamad Al-Thani, and the three-day show has already attracted leading industry players from across the globe who will showcase their latest innovations for safety and security.

To date, defence specialists from Qatar, France, Turkey, Bulgaria, China, Denmark, Italy, Germany, Spain Morocco, UK, USA, Russia and Slovenia have confirmed their participation, across industries including public security, defence solutions and equipment, telecom security and technologies, firefighting, radiation detection, emergency equipment, law enforcement products, communications software, airports security systems and more.

Organized by the Ministry of Interior (MOI) of the State of Qatar and the French-based Comexposium Security, Milipol Qatar will include several country pavilions – including France, Italy, Germany, UK and North America – and serves as the link between buyers, purchasing advisors, users, security and safety experts, manufacturers and distributors.

The must-attend show is the ideal platform to network and close deals for a better, safer future for all. The exhibition presents increasing opportunities for organizations across the full spectrum of sectors, with links to civil defence and homeland security, to demonstrate how they can contribute towards safety and security for the world's population.

Leading international exhibitors have recognized the opportunities presented by participating at Milipol Qatar 2018 to name few such as Magmid Ltd from Russia, which specializes in developing secure Android devices for a range of industries; Mirion Technologies from France – providing innovative solutions in radiation protection; and Nuctech Company Limited from China – an advanced security & inspection solution and service supplier in the world.

"Homeland security and civil defence are crucial pillars of any nation. With growing populations and digital transformation taking hold, countries, governmental entities and private corporations are seeking smarter security solutions to keep their people and organizations safe. Milipol Qatar 2018 is a unique opportunity for security specialists to

demonstrate their latest solutions and for decision makers and buyers to secure crucial facetime with current and potential new partners," said Michael Weatherseed, IT & Security Business Unit Director/Milipol Events Director.

"So far we have strong participation as the leading international exhibitors and countries seek dedicated pavilions. We anticipate this will continue, with new products and new features, such as live demonstrations and with the incorporating of the Civil Defence Exhibition and Conference. Milipol Qatar 2018 is a true benchmark of the homeland security and civil defence industry and is a must-attend for all industry professionals."

The addition of live demonstration for the first time to Milipol Qatar, presents homeland defence pioneers from around the world the opportunity to display their technologies in a controlled environment, giving key decision makers, exhibitors, visitors and buyers the opportunity to witness new products and innovations in action.

As part of its continuous evolution to provide the best experience for exhibitors, visitors, buyers and industry professionals, Milipol Qatar 2018 has incorporated the Civil Defence Exhibition and Conference. The collaboration of the two shows has resulted in the region's leading Homeland Security and Civil defence event, bringing together key global civil defence players, for a series of focused conference sessions and agenda-setting panel discussions on the latest and emerging civil defence trends and best practices.

Milipol Qatar 2018 is now open for registration for exhibitors, visitors and press. Milipol Qatar 2018 is a trade-only event, open exclusively to defence and security industry specialists and professionals. The exhibition is open from 9.30am – 5.00pm on Monday, 29 and Tuesday, 30 October, and from 9.30am – 4pm on Wednesday, 31 October.

Homeland security experts gear up for Milipol Qatar 2018

NEWSLETTER
10/18

Dates, opening hours and venue

Milipol Qatar is the international event for homeland security and civil defence in the Middle East. It takes place every two years (even-numbered years) in Doha. The 12th edition of the show will be held from 29 to 31 October 2018 at the Doha Exhibition and Convention Center (DECC).

An extensive experience in the event industry

The worldwide exhibition of homeland security – Milipol – has been organized for the first time in 1984 in Paris and occurs every odd-numbered year. In 1996, the State of Qatar chose the Milipol trademark for its international references to launch an event dedicated to homeland security in the Middle East.

The Milipol Qatar exhibition is being held under the authority of the Prime Minister and Minister of Interior H.E. Sheikh Abdullah Bin Nasser Bin Khalifa Al-Thani. [A Milipol Qatar Committee](#) is responsible for the organisation of the event in Doha in close relationship with the Milipol team based in Paris.

The must for security professionals

In 2016, the show welcomed:

- **230 exhibitors** from 35 countries
- **6,538 security professionals** from 103 countries
- **246 official delegates** representing 35 countries
- **182 journalists**

The event is known for the professionalism and the quality of attendees, for showcasing the latest innovative products and services and for covering [all fields of public and industrial security](#).

Milipol Qatar provides access to security markets in the entire region and enables key international industry players to meet in a fast-developing environment with medium- to long-term economic and strategic projects.

Download the [Milipol Qatar history brochure](#) to discover the Exhibition's Facts & Figures.

Milipol Qatar 2018 will take place from 29 to 31 October 2018 at the Doha Exhibition and Convention Center (DECC).

Opening hours for Milipol Qatar 2018, the international event for homeland security and civil defence, are as follows:

Monday 29th October & Tuesday 30th October: 9.30am – 5.00pm

Wednesday 31st October: 9.30am – 4.00pm

(Subject to change)

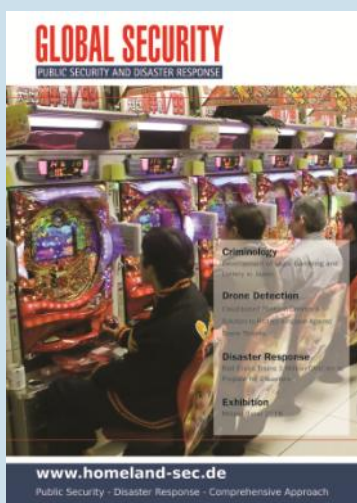

Note: The exhibition is reserved for security professionals. Minors under 16 are not allowed to attend the event.

Doha Exhibition and Convention Center (DECC)

This new exhibition centre is the most modern exhibition hall in the Middle East. It is located in "West Bay" at the heart of the Doha's business district, and surrounded by big shopping malls, luxury hotels and a few minutes away from the popular "Corniche" waterfront.

The Doha Exhibition and Convention Center offers 29,000 square metres of modular, 18-metre high ceiling exhibition space. There are no pillars in the exhibiting area, which enables to display big vehicles, machines and other heavy equipment inside the halls.

The car park under the Convention Centre can accommodate 2,815 vehicles and 200 taxis.

We did an interview with Michael Weatherseed, IT & Security Business Unit Director/Milipol Events Director, on the Milipol Network for [Global Security 1-2018](#).

Perimeter Protection

Milipol Qatar 2018 – STAND L 058

CNL Software is a world leader in Physical Security Information Management (PSIM) software, for complete integration of physical security systems in the control room. We believe in a connected world, where security and life safety are not compromised by silos of information that cannot talk to each other.

We believe that technology should take the complexity out of decision making by integrating systems, people and processes. We work with the world's leading manufacturers in their respective technologies to create a security integration and hardening platform that automates

routine functions and provides operators with step by step guidance to manage complex processes. For the past 15 years, we have been perfecting this PSIM platform, IPSecurityCenter™, and today it is the world's most sophisticated, tried and trusted PSIM platform.

Advanced Control Room Solutions for Major Events, providing: Increased situation awareness, Aggregated intelligence gathering, Faster response times, Increased emergency preparedness, Centralised integration & management, Enforced compliance to policy & more.

Border Management Summit
December 5-6, 2018
San Antonio, Texas

Scrutiny of border protection initiatives has been growing in recent years, particularly due to a surge in transnational crime, the emergence of sophisticated terror organizations, as well as other illicit activity. This 2-day summit will focus on creating a forum for military, state, local, federal law enforcement officials as well as industry leaders, to tackle our nation's most difficult challenges of finding workable solutions to border protection challenges that can be implemented in the field immediately.
